

LIFE AT BTU

Life on Campus

Our university spreads over two campuses, Mimar Sinan Campus and Yıldırım Campus. Moreover, plans for a new campus in Kestel over a 1.537.928 m² area are under way.

Health Services

Emergency medical treatment and first aid is provided in clinics located on the Mimar Sinan and Yıldırım campuses.

Psychological Counseling and Guidance

Psychological counseling and guidance is available on both campuses to contribute to our students cognitive, psychological and social development.

Campus Cafeterias

Cafeterias are located on each campus and 3 canteens are open to students and staff throughout the year.

Sports

On our Yıldırım campus a sports hall and an outdoor mini football field are available for students to use. Students successfully represent our university in the fields of archery, basketball, volleyball, football, swimming, table tennis, tennis, wrestling, chess, boxing, taekwondo and orienteering in national championships.

Art and Culture

Students' clubs are an active part of our university organizing exhibitions, theatre performances, trips and conferences throughout the academic year. Our International Students Club and Erasmus Club offer foreign students the opportunity to adapt to their new environment and meet with their peers.

Disability Free University

The office for disabled students is a support unit committed to ensure that students have equal access to educational opportunities so they can participate freely and actively in all facets of university life.

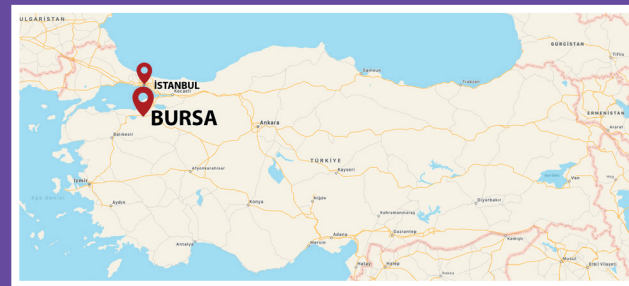

IT Facilities

Computer laboratories with a capacity of 40 students with access to programmes such as SolidWorks, TRNSYS, Catia v5 R19, NX 8.5, Ansys v15, Matlab R2014b, Floefd, FCHART, Msc ADAMS, Car Maker, Autocad and Abaqus v6.13 are available to students.

Libraries

Students can take advantage of reading rooms and study rooms in the library where they can have access to 10.250 printed publications and over 30.000 online scientific journals worldwide.

Why Turkey?

A developing economy and a transit point between Asia, Europe and Africa.

A geography with a young and multicultural population.

A country hosting international cultural, sports and scientific events with its rich infrastructure.

An ideal country for students with quality education, low tuitions fees and low cost of living.

Research Laboratories

Since its opening in 2010 under the label 'Research University', Bursa Technical University has invested a total of 40 Million TL in the development of its research Labs which are fully equipped and open to students and staff.

Why Bursa?

Bursa is the fourth biggest city in Turkey and is located one and a half hour away from Istanbul and Istanbul Sabiha Gökçen International Airport.

Bursa is situated between the three biggest cities of Turkey: Istanbul, Ankara and Izmir. The city has very good connections (plane, ferry, coach) to the rest of Turkey. You can easily reach any location throughout the city using Bursa's vast network of Metro, tramway, cable car, buses and minibuses.

The first capital city of the Ottoman Empire, Bursa has a rich cultural heritage. Visitors can enjoy Uludağ Ski Resort in the winter and the Sea of Marmara and its beaches in the summer.

With 6 annual festivals, 3 of which are international, and with more than 40 cultural centers, 20 museums and 30 art centers, culture is at the heart of the city.

Bursa enjoys a mild climate and all the benefits of life in a big city with a lower cost of living than in most Turkish cities.

Why BTU?

University and Industry Collaboration... Opportunities for applied education, internships and jobs ...

12 Undergraduate Students per Academic Staff... Great and equal laboratory opportunities for all students.

A Science University ... One out of every four students is either a Master's or a PhD Student.

Opportunities for students to study abroad or in another Turkish university via exchange programmes such as Erasmus+, Mevlana and Farabi Outstanding English Education... One third of staff in School of Foreign Languages consisting of native speakers.

Bursa, Second Biggest in Production and Export in Turkey ... A production power that can compete with the World in sectors of automobile, textile, machinery, electrical devices, plastics, chemistry, food, furniture and forest products.

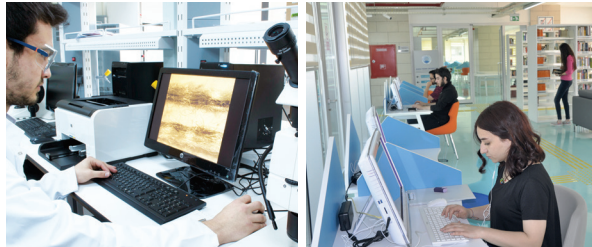

BURSA TECHNICAL UNIVERSITY

BTU

At a glance

Bursa Technical University was established in 2010 as the 5th technical university in Turkey and the 2nd state university in Bursa. The university is situated in Yıldırım, a district of Bursa that is famous for its industry, summer and winter tourism. The university uses all the advantages of being located in an industrial and culturally rich city to provide technological and social opportunities.

The university was established to become a research university and the development in this direction is supported by the fact that every fourth student is a graduate student.

With its advanced laboratories, the students can easily make experiments and learn how to use the devices. With the Sectoral Training Programme the students can, alongside with their summer internships, do internship in a company in their own field and acquire the necessary experience on place and get a head start on their working life.

International Relations Office

Bursa Technical University attaches great importance to internationalization. Our university offers its staff and students the opportunity to take part in exchange programmes such as Erasmus+, Free Movers and Mevlana. Turkey with its outstanding location is a bridge between Europe and Asia.

Bursa Technical University is pleased to welcome international students not only at undergraduate level with the Turkish YÖS exam but also at postgraduate level. The orientation programme for international students offers the possibility to get acquainted with peer students as well as the Turkish culture and social activities at BTU.

During the academic year, the International Relations Office offers information and support to students and staff regarding grants, exchange programmes and international projects.
